

The schematic diagram illustrates the internal circuitry of the PMEG2020 component. It features a 20-pin package with pins 1-10 on the left and 11-20 on the right. Key internal components include:

- Resistors:** R45 (10k), R47 (10k), and R48 (10k).
- Capacitors:** C4 (4uF/25V) and C6 (10uF/25V).
- Diodes:** D1 (YELLOW), D3 (RED), and D5.
- Power Connections:** +2V5, +5VP, +12V, and +12V.
- Output Pins:** SHA_PWR and SHA_0/C.
- Internal Labels:** FAIL / OVERHEAT, ENGAGED, and Header_R/A2x3.

The component is labeled PMEG2020.
